

## SCROLLING & ZOOMING

- Swipe along the right edge to scroll the page. 

- Drag with two fingers to scroll the page.

- Pinch with two fingers to zoom in or out.

## WRITING

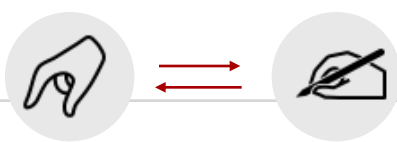

- Select Pen mode: 
- Write on the screen with a finger or stylus just as you would with pen on paper.

*write here*

## USING A STYLUS

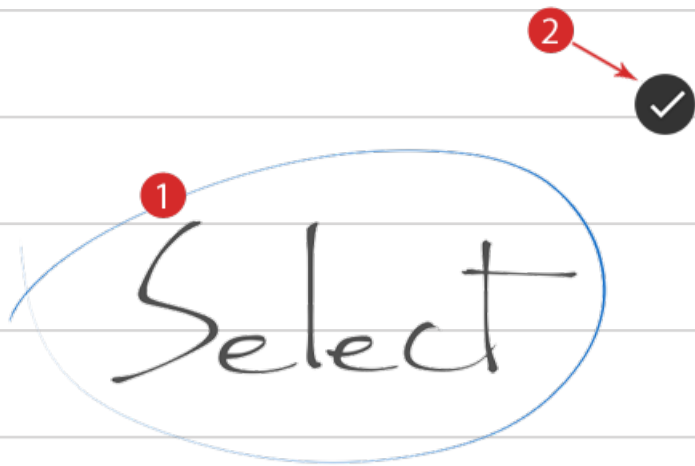

- Tap this button to toggle between Finger and Stylus mode.

- In Stylus mode, you can rest your palm on the screen's surface while writing. This feature is called Palm Rejection.

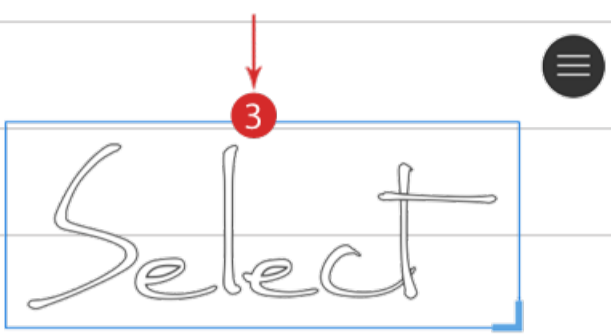

Notes: - Please turn off Multitasking Gestures in your iPad Settings to use this feature.

- You won't be able to use two-finger gestures for scrolling and zooming while in Stylus mode.

## SELECTING

- Draw a loop around the handwriting you want to select.

- Then tap the checkmark icon that appears to select the handwriting.

Note: If ignored, the checkmark icon will disappear in three seconds, assuming you didn't intend to make a selection.

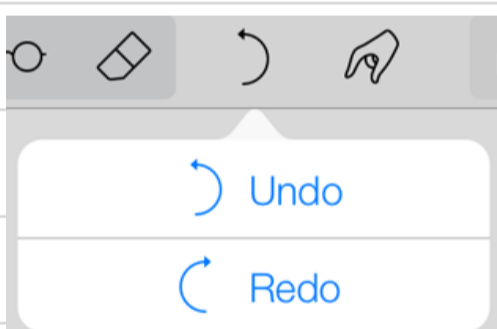

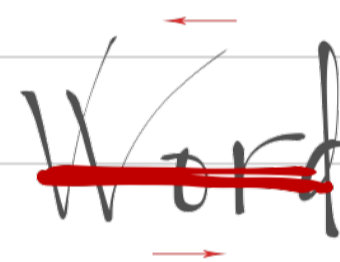

## EDITING

ERASE: Use Eraser mode

DELETE: Select the handwriting and tap the delete icon.

QUICK DELETE: Cross out the handwriting back and forth just as you would on paper.

UNDO/REDO: Touch and hold on the Undo button to show the Undo/Redo popover.

## MORE ...

Close-up Writing Mode enables you to write fine handwriting with any stylus. To activate this mode, touch and hold anywhere on the page when in Pen mode.

To create a new notebook or to organize notebooks in folders, tap the top-left Library icon.

To get more help, tap the top-right Tools button, scroll down and tap Help.
